

Remote Access

VMS WEB STUDIO® and BARTCOLIVE®

FACT SHEET

BARTCO VMS WEB STUDIO® and BARTCOLIVE® App...manage your asset and/or fleet from anywhere in the world via the internet in real-time!

BARTCO VMS WEB STUDIO® and BARTCOLIVE® is a web-based application that runs on Bartco's secure cloud network for maximum security and availability.

It has been developed to allow customers to interact and provide full management of their Bartco products; including Variable Message Signs (VMS), Electronic Fire Rating signs and portable traffic lights.

WHY BARTCO?

VMS WEB STUDIO® and BARTCOLIVE®

- Real-time communication
- View each product's operational status
- Secure login using VMS WEB STUDIO® credentials which can be memorised to speed up subsequent logins
- Asset Management and tracking system incorporated
- Server storage and access product and/or user history
- Remote programming via any Apple or Android laptop, tablet or mobile.

The BARTCOLIVE® app is available to download from:
